Third Annual Mail Auction Gladiolus Bulbs

THE very satisfactory results (both to the buyers and ourselves) of our two previous Mail Auctions of bulbs have influenced us to hold our Third Annual Mail Auction this year.

The list of lots offered in this Mail Auction Catalog are all bulbs grown by us and we guarantee them to be true to name, up to size and absolutely healthy. The lots are so catalogued in various sizes and cormels that a grower who wants to get a start of some particular variety may do so at small expense. We are enabling growers and dealers to buy bulbs at what they think is the right price.

HOW TO BID

When you receive your Mail Auction Catalog, place the highest amount you are willing to pay for any particular lot in the place provided for it in the catalog. After you have made your bids on the lots you desire, transfer to your bid sheet the number of each particular lot and the amount you have bid on it and mail the bid sheet to us, keeping your Mail Auction Catalog for reference and to check up on any lot you may be fortunate enough to buy at the auction.

All lots will be sold for cash to the highest bidder without reserve and **all lots secured must be taken up and paid for at once upon notification.** In case there should be two bids of equal amount received for the same lot, the bid first received will get this particular lot. There is no advantage in waiting until the last minute before making your bid. **DO IT NOW.**

Here is a chance to buy what you need at your own price.

BIDS CLOSE FEBRUARY 15, 1930

At midnight February 15, 1930, the auction will close and successful bidders will be notified at once of what lot or lots they have bought and the amount due. They will then forward to us the amount of their respective bids and upon receipt of the purchase price the bulbs will be packed and shipped at once unless buyer desires later shipment. There will be no extra charge for packing.

GUIDE TO BIDDING

We have on file the wholesale price lists of fifty of the most prominent growers in this country and at a great amount of trouble, have compiled a guide to bidding by averaging up the various prices of these growers. These prices have been added and the result divided by the number thus giving the average price for any particular variety. For example, thirty-one growers list Halley. The prices vary from \$15.00 per thousand to \$26.00 for the same number for No. 1 bulbs; the average price for the thirty-one growers is \$16.85 per thousand. Where the average price is given for thousands of a given variety, the letter M is prefixed to the price, thus: M\$16.85. Where the average price is given for hundreds, the price is given with C prefixed, thus: C\$16.85. Where the prices are for single bulbs, Ea. is placed after the price, thus: \$16.85 Ea.

Where there are no reliable wholesale prices on a variety, we will give the average retail price which will be prefixed by the letter R, thus: R\$16.85.

In all cases the prices given are for No. 1 bulbs.

Lot No.		Average Price	Bid
1.....	Acme (M) Large old rose blossoms. Fine. 25 No. 1	R25c ea.
2.....	Admiration (K) Fine ruffled pink. Rose throat	R20c ea.
